

Lovotos Campaign

Arc Plans

Arc 1

- The white order and the black veil
- Lead by Xander
- Started off as a monk several hundred years ago
- Made his fortune as a bounty hunter and adventurer
- Went crazy after his close friend died
- He was exposed to ink
- Ink and etherium are the two major power sources in the city
- Using ink, etherium, and help from malice labs he developed advanced cybernetics
- He plans to assassinate the mayor and detonate a bomb to kill everyone in low town
- See [Ember's Notes] for info on his 5 lieutenants
- Winter is one of his lieutenants
- Winter is also basically a mind controlled cybernetic zombie robot

Arc 2

- Malice labs
- Run by a beholder in a supercomputer named The Sightless One
- Instead of eye stalks he sees through cameras
- He wants to take over all the tech in the city
- He hasn't yet because the the mayor asked him not too and the mayor is one of his clients
- He is also stopped by a magic firewall
- He is working on two major projects which he funds by selling biotech and doing war crimes
- Project 1 is using ink and etherium to make a biomechanical army
- Maddie's character is the prototype
- Project 2 is creating a draco-litch
- Using the corpse of Urxa
- Urxa is the dragon who died in the prolog
- Maddie's character was made in Malice labs
- Two glands in her body to secrete etherium and ink and which are heated to perform repairs for the physical body

- Both etherium and ink have highly transmutable properties

Arc 3

- Aelana, the blight mother wants to let a giant cosmic serpent devour the 9 worlds
- She has 5 kids/corpse homunculi
- Each one has a piece of her essence
- All of their names are spelled weird, but for these notes I'll use the normal spellings
 - Crimson - Blood magic
 - Ivory - Bone magic
 - Celadon - Illusion magic
 - Blue - Mind control
 - Ebony - Ink
 - Magenta (6/5)
- Magenta holds the parts that keep Aleana human
- She doesn't have any supernatural powers so she's not included in the 5
- Alana's plan is currently being stopped by the lock
- It locks all the planes in place and doesn't let souls leave Seros to be judged by Soluna
 - The lock is also what makes the prisms work
 - It can be unlocked suing 5 of the 9 swords symbolizing a majority agreement among the gods
 - The 5 locks are called
 - The storm point
 - The frost point
 - The melting point
 - The stone point
 - The sky point

Silas' Session Plans

Interlude 1 - Blood Iron

- Don't forget to recap
- Clues
- 625 missing "Donors" mostly homeless. Tho the scope doesn't become apparent till later
- News that homelessness in low town is at an all time low

- Initially written off by Xaney, later she looks into the bug and sees that they didn't cause that. This is confirmed by a call from Ohm
- If Finn thinks to call their parents he gets voicemail. If the party goes by their parents house they find it empty. Half eaten food on their plates
- Mute, traumatized guy stumbles into Tia's hospital with slits on his wrists and throats
- Phoenix is suspicious and goes missing after going to investigate
- People buying a fuck ton of buckets and weirdly powerful magnets
- Inferno scratching at a door
- Rooms
- Side room w/ a white board
- White board in a side room w/ chemical formulas and equations carbon, iron, and hemoglobin chemical compounds designed for the heart "First of all, there are roughly 5 million red blood cells in a microliter of blood. Accounting for the tiny fractions of iron in red blood cells and the amount of blood in the body, the amount of iron within an average human body totals 4 grams, enough for about eight paperclips."
- Draining room
- Modified artificial heart de-oxygenating the blood so the hemoglobin is magnetic
- Guarded by LORD DREAD GRAVES
- Super magnetic to pull out the iron
- Set it on fire to burn away impurities like oxygen and hydrogen
- Phoenix is doing this. They killed the last pyromancer and now their parents are being held hostage
- Melt down the resulting iron sand into workable iron. This causes a loss of about 1/4 mass
- At first they thought they could do it with just cultists, but after finding out about this loss they had to start nabbing homeless people
- Work the iron into a dagger. Does 1/2 HP rounded up. Wielded by the bad guy. Must be destroyed after the session.
- Smith, the blacksmith guard
- NPCS
- Lord Dread Graves
- 20 AC
- Final Fight

- Final boss is at a secondary location with the finished dagger. Maybe it's getting auctioned off? Head honcho/rogue uses the dagger at the party (he also has a wrist mounted magnet in case he wants to throw it??) Then lackeys/guards finish them off once their low. Also there are archers on the upper floors
- Notes from Luke
- No malice labs. A Sword of Blood is too overtly magical for their tastes. Let's do the Church of Him: Elana's faction of fanatical worshipers who want to summon their god Carroz to earth. Perhaps they made a sword with the hope that it would open a gate to the Void if enough blood is spilled with it.
- Low town's safe zone has a force barrier that separates it from the horrors of its southern sections. It has no true heroes. It looks like a modern New York but in complete disarray. At the end of your session, unrelated to your arc, the soft blue barrier falls
- I was going to have Phoenix get kidnapped. But now I think I'll have them be the pyromancer and have their family kidnapped as collateral
- Carter clone is not the pyromancer
- Notes
- Phoenix killed their last pyromancer
- Cornel Blackwater - Kimi's Therapist

Time Skip 2 (Ask Luke during session 1 / 3)

I want to pitch the following to my Dungeons & Dragons DM. Give me a short bulleted list that I can send to him beforehand, and also a detailed plan I can follow while role-playing as Cadence / Phoenix

Okay so the spell planar binding: it has this text would this spell you attempted to bind a Celestial an elemental Affair or fiend to your service the creature must be within range for the entire casting of the spell at the completion of the casting the target must make the Charisma saving throw on a failed save it's bound to serve you for the duration if the creature was summoned or created by another spell that spells duration is extended to match the duration of this spell.

I want to turn Cadence and have everything that follows happen as Cadence then I want to wake back up as Phoenix with all of the memories you gave me minus all of the memories before my friend walks in. at which point I will turn back into Phoenix.

Azocar has the braid

I want to propose to do this to the demon Azocar, Carter's father. I do not however propose that it should succeed. Instead I think that one of the other PCs would stop me. Ideally it would be

Pitch

- Whatever backstory you want to give me
- A little backstory I want to give you
 - Azocar has the Braid
 - I attempt a Planar Binding spell to bind the demon Azocar
 - I have a reason I want to do this but we'll have to discuss it in person
 - Ideally stopped by another PC, such as Jack, Maddie, Kimi, or Ed
 - Jack - Jack would be the best option because he is also a warlock. Also I have been working on building a relationship with his character. However he left me in the pyramid all alone directly following the events of the last session. This could either be an incentive because it makes him feel bad or a reason to choose another character
 - Maddie - Maddie would be the next best option since the reason that I want for Phoenix to finally snap and attempt something super duper dangerous on their own is because in their past life or perhaps the life before that they were Cadence and they got sucked onto this plane during the events of the wedding. Maddie would also be good because instead of RPing as Ant she could come out onto the porch and RP as Lily / Echo talking to me through Azocar
 - Kimi - Kimi would be the next best option because she is also a druid
 - Ed - I don't have any in character reasons to pick Ed but maybe you have some behind the scenes ones?
 - Stopping Phoenix could strengthen relationships between characters

My Plan

- Get Azocar one-on-one
- Touch his forehead and cast the spell Dream on him and give my pitch to Luke

- In the dream we are on Para a location Azocar may recognize
- I will explain to him I'm willing to sell my soul to get back to my wife on Para. Becoming a warlock in the process
- Then explain the Pitch to Luke
- Begin to carefully set up the required components and perform the Planar Binding spell, ensuring Azocar is within range throughout the casting.
- I will tell Luke to go back inside and I will be quiet while somebody gets dragged over to where I am. They'll have a full 24 hours
- It is at this point that ideally either Ant or Finn will burst in

After

Azocar has the whole braid, but eventually Lily will be able to travel to Lovato's using Zulie who has the same abilities as the braid. At that point Phoenix will have the braid. It will unravel into two one of which they will give to Maddie. (See Para Campaign > Future Sessions)

Session Notes and Quotes

...

The session where we fought the dragon with Sean

The first of the two sessions we did while on the Myrtle Beach trip

- Ended in the pyramid
- The City's power was knocked out when we knocked out the Aether Ink heart that was powering the beholder on a computer in the biodome

The second of the two sessions

- Went back to the biodome to get a Similac rum generator AKA 3D printer for ant
- I went to Willows and held Spryg's sword which started to bring back some memories of my death
 - I remembered the names of my companions Okiba, Tyler, and Voran
 - I remembered dying In an explosion of Fire; staring down ivory. all of my friends were turned to stone
- Elena showed up took all of the vials of blood except for the vial of Blues blood which aunt was able to sleight of hand away
- Phoenix was feeble-minded
- Carter was turned into a very dead very trash compacted mangled corpse

Time skip 2 Session 1 of 3

- Phoenix was successfully on feeble-minded and the rest of the memory of their most recent death came back to them as well as the memory of how they used to be Cadence and ended up on Lovato's Many lifetimes ago
- "We Revived Carter but he's different" - ant "Different like smarter different?" - Zanny
- "Oh God Birds can't cry" Phoenix during their post Feeble mind breakdown original quote by Sean
- "Tia were you feeble-minded too?" Ant
- "You can be like the guy in the suit" Tia to newly goblin-ified Carter
- The session ended right after Zanny and Carter's reunion
